Professional Summary

Computer Science graduate skilled in Machine Learning, Data Analytics, and Full-Stack Development with expertise in Python, SQL, TensorFlow, React, PostgreSQL, and Power BI. Experienced in developing AI applications, interactive dashboards, and scalable software solutions.

Education

CMR Institute of Technology, Bengaluru

MCA (2025)

CGPA: 8.77/10.0

Krupanidhi Degree College, Bengaluru

BCA (2023)

CGPA: 8.51/10.0

Technical Skills

Languages: Python, Java, JavaScript, SQL, C

Machine Learning: TensorFlow, Keras, Pandas, NumPy, OpenCV

Frontend: React, HTML5, CSS3

Databases: MySQL, PostgreSQL, MongoDB

Developer Tools: Git, GitHub, VS Code, Eclipse, Streamlit

Visualization: Power BI, Tableau, Microsoft Excel

IoT: Arduino, Microcontrollers, Sensors

Internship

Python Programming Intern — CODTECH IT SOLUTIONS

Jan-2025

- Developed Python applications using object-oriented programming, debugging, testing, and software development best practices during a 1-month internship.
- Implemented file handling, exception handling, and data structures to build efficient and maintainable programs.
- Debugged, tested, and optimized Python code to improve functionality and performance.
- Collaborated on assigned tasks while following coding best practices and project deadlines.

Projects

LipNet – End-to-End Lip Reading System

GitHub

Python, TensorFlow, OpenCV, Streamlit

- Built an end-to-end deep learning pipeline using TensorFlow and OpenCV for lip-to-text conversion.
- Optimized video preprocessing workflows, reducing data loading time by 15% on datasets exceeding 10,000 frames.
- Developed a Streamlit-based web application to deploy the trained model for real-time lip-reading inference.

Sales Analysis Report

GitHub

Power BI, DAX, Excel, Data Modeling

- Developed an interactive Power BI dashboard to analyze sales performance, revenue trends, and product profitability.
- Designed DAX measures, KPIs, and interactive visualizations to support data-driven business decisions.
- Built a data model with KPI tracking and trend analysis to support business intelligence and executive reporting.

Customer Behaviour Analysis

GitHub

Python, SQL, PostgreSQL, Power BI, Pandas, NumPy

- Performed data cleaning, feature engineering, EDA, and SQL analysis using Python and PostgreSQL to identify customer behavior patterns.
- Built interactive Power BI dashboards to visualize customer demographics, KPIs, sales trends, and behavioral insights.
- Analyzed customer segmentation patterns using SQL and Python to support data-driven marketing and business decisions.

Certifications

- AWS Machine Learning Engineer Associate – Amazon Web Services Curriculum
- Analyzing Data with Power BI – Analytics Vidhya
- Tableau for Data Analytics – Analytics Vidhya
- MERN Stack Development – Udemy
- MySQL Basics – Great Learning
- Excel from Beginner to Expert – Analytics Vidhya
- Generative AI with AWS – Analytics Vidhya

Achievement

- Received the Versatile Student Award from Krupanidhi Degree College.
- Active Member – Techno Tuners Technical Club
- Industrial Visit – ISRO, Mysuru
